EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. This action is responsive to submissions of 24 July 2003.

Drawings

2. The drawings were received on 6 February 2004. These drawings are acceptable.

Information Disclosure Statement

3. The listing of references in the specification is not a proper information disclosure

statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information

submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be

incorporated into the specification but must be submitted in a separate paper." Therefore, unless

the references have been cited by the examiner on form PTO-892, they have not been

considered.

Allowable Subject Matter

4. Claims 1-2 are allowed.

5. The following is an examiner's statement of reasons for allowance:

6. Regarding independent claims 1 and 2, the prior art does not disclose or fairly suggests a

method or apparatus for stabilizing a scintillation detector including a photomultiplier including,

among other elements a pulsed light source and means for directing light from the light source to

both a photodetector and a photomultiplier; and a control unit receiving signals representing

signals representing a temperature of the scintillator and light received from both the

photodetector and the photomultiplier.

Application/Control Number: 10/625,920

Art Unit: 2878

The examiner notes that while a wide variety of scintillation and photomultiplier stabilization means based on light and/or temperature (see for example Rozsa – US 6,407,390 B1; Kimmich *et al.* – US 6,087,656; Nurmi *et al.* – US 5,548,111; and Brown – US 4,346,590), such prior does not fairly suggest the presently claimed invention.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
